HAVAS

Rio Janeiro May 17.—General Candido Jose da Costa, the new President of Rio Grande, has just started for his province.

Berlin May 17.—An interview between Caprivi, Kalnocky and Crispi is spoken of as likely to take place soon.

Paris, May 17th [evening]—A letter from Boulanger to Deputy Laisant has just been published, advising the dissolution of the Republican National Committee of which the General is President.

Madrid, May 17th [Evening]—A general strike has taken place in the province of Vizcaya; numerous arrests have been effected; the strikers are very excited and serious tumults are feared.

GALVESTON.

New York, May 17th—The steamship "City of Alexandria" from New York to Havannah and Vera Cruz has stranded on the coast of Florida; there were 6 cabin and 6 deck passengers; details are meagre on account of the nearest telegraph station being far off.

Hamburg, May 17th—Many persons taking part in the strikes have been arrested; the papers deny that those who were guilty of rioting were workmen. The posts of the gas-works' strikers have been filled up with a sufficient number of men to supply all the gas required.

Paris May 17.—The International Telegraph Congress here is open.

Prague May 17.- Yesterday negatiations commenced between the men on strike and the masters; if a satisfactory arrangement be arrived at, the men will return to work to-morrow; they have modified their demands.

Berlin May 17.—The Brewers' strike in Cologne has broken up. The Socialist Union of Working men belonging to the textile factories in Solingen have resolved to boycott 30 manufacturers who have refused an increase of wages; two houses have offered large sums to the Union to have their names removed from the Black List.

London, May 17th—The correspondent of the *Standard* in Rome announces that France is annoyed on account of the negotiations between England and the Vatican and that the Papal Nuncio in Paris has been charged to arrange the matter amicably.

St. Petersburg, May 17th—The newspapers here express surprise at the bellicose tone of Emperor William's speech at Tuesday's banquet in Koenigsberg, after his pacific discourse at the opening of the Reichstag, more especially, taking into consideration the fact that the Emperor is making preparations to assist at the manoeuvres of the Russian Army in Krasnoe Zelo. They unite in asserting that, so far as Russia is concerned, there is nothing in the political situation to justify the tone of the speech in question.

London, May 17.—It is stated that the sole object of the visit to St. Petersburg of the Crown Prince of Italy is to arrange his betrothal with the Imperial Princess, Xenia, daughter of the Czar.

Berlin, May 17.—A steamboat crowded with passengers upset yesterday on the river Oder near Ratibar, many being drowned.

London, May 17.—Sir James Ferguson, Under-Secretary for Foreign Affairs stated last night in the House of Commons that the Government had not in any way authorised the treaties made by Stanley with various African chiefs. Private letters from Emin Pasha announce that he is not thinking of returning to the Equitorial District but will occupy himself in promoting the welfare of Bagamoyo and Lake Panganyika. The Khedive is investigating the manner in which Emin has been administrating his province, having received evidence that he did not fulfil his duty to the Egytian Government but tried to strengthen his personal power; it is fur ther alleged that he was disposed to temporise with the Mahdi.

Madrid, May 17th—The majority of the ironworkers in Bilbao have left their work; the neighbourhood is occupied by military reinforcements; riots have commenced and several miners have been killed in conflicts with the gendarmerie; troops are being hurried to the spot.

London, May 17th—A *Times* telegram from Buenos Ayres announces that the Argentine Republic and Chili are firmly resolved to refuse Blaine's claims, enveloped as they are in a specious commercial treaty which would tend to dictate to these republics their internal and external policy.

THE UNION CIVICA.

Although, in all questions affecting political susceptibilities, we are constrained by the force of prudence and the spirit of nationality to calm the ardour of our feelings, we will, nevertheless, for once abandon the elevated platform of neutrality and, in common with President Juarez, applaud the formation and greet the appearance of a new political party. The correctness of the word 'new', of course, may be questioned, for in the beaten path of morals and politics the culmination of human genius is, not to create new ideas, which is an impossibility, but to imprint a new direction to old ones. However, on this point we will not argue. Everyone hails the advent of this political association for one reason or another. H. E., the first in the very first line, extends a friendly hand and bows politely to the Union Civica, because, as he says himself, it reinforces public opinion; that is, by strengthening the wholesome views of a minority, it is likely to temper those of a governing majority. Others welcome the association because they are convinced its success will make the gold premium fall. We confess to a very different motive; for, although we are impressed with the political importance of the move, our sympathies have been awakened, not by rhetoric eloquence, nor fiery invective, nor the prospects of political regeneracy, but by the sweet presence of the most dangerous, the most charming, and unquestionably the most powerful element in a State—the ladies. We care not to pry into the causes of the presence of the ladies at the last meeting of the Union Civica. The very appellation vibrates with suggestive tenderness to the feminine ear, or it may be that the handsomest men in Buenos Ayres figure in the ranks of the new political party. Be that as it may, we merely desire for the benefit of the public to record the most significant feature at the last meeting of the party in the vast hall of the Onrubia Theatre. The acquisition of the enthusiastic support of the ladies will render the Union Civica inviolable, invulnerable, invincible.

It is not our intention, however congenial the task, to indulge in a disquisition on the rights of women. For tenderness, for courage, for affection, for hatred, for virtue, for enthusiasm, women stand alone, like Adam's recollection of his fall. Since the days of Eve, history presents us with an imposing array of heroines whose superiority and power consisted in the violence of the feelings we have just enumerated; and those feelings to-day, voluntarily given in support of a political asssociation, are the terrible foes with which President Juarez and his party have to grapple. But women never combine to destroy: they unite to save. The Sabine heroines, with Hersilia at their head, the mother of Camillus and the patrician matrons, saved Rome on different occasions. The Argentine matron will save Buenos Ayres. How skilfully, how ably she directs the charitable institutions of B. Ayres. The administration of our law courts, our home are foreign affairs, our financial department, our municipality, pales into despicable insignificance when we examine the super-excellent management of the Sociedad de Beneficencia. To the observant mind it seems but natural to conclude that were ladies admitted to take a more active part in the administration of the country's affairs, things to-day would be very much better. It is a wonder, indeed, that in the presence of such feminine excellence, a man like General Mansilla for instance, a prime favourite with the ladies, polished, eloquent and influential, does not stand up in our Congress Hall and with his usual penetration and verve introduce a bill granting political privileges to the ladies of Buenos Ayres. He might dwell like us on the excellent management of the Sociedad de Beneficencia, and as the General is a lover of England he might point to the superior working of the British Government under the rule of a sapient queen. As a warrior, he might quote the incidents of the Paraguayan war. In the course of that eventful struggle the ladies declared themselves the enemies of Lopez. They scorned to dance with friends of the tyrant, and the result of this feminine system of Paraguayan boycotting was that Lopez was left without a friend and fell like a tyrant, ingloriously. Turning to matters more immediate, he might cite the patriotic attitude of the ladies in the U. States and extol the fashionable manner in which they contributed to cure a terrible financial crisis by agreeing to wear calico dresses. Here, unfortunately, we do not manufacture calico. But the Argentine matron can initiate a Diamond Fund and with this powerful and precious lever help to pay off the National debt; turn her bracelets her rings and her diamonds — the causes of the crisis—into gold, and with that gold strengthen the metallic treasures of the nation; make her own dresses, to the ruination of "modistas" and other parasites of extravagance; abandon the silly fashion of wearing immense hats and take to the quiet Quaker's bonnet or kiss-me-quick, remembering that it is a singular coincidence that the more energetic a lady is, the greater will be her preference for low bonnets, a coincidence strikingly exemplified in the ranks of the Salvation Army. We will not extend the list, lest it should be said that, in spite of an innate and oft-tested spirit of gallantry, we are secretly convinced that the ladies of Buenos Ayres are susceptible of vast improvement. We merely point out how the gentle sex can save the whole country from the terrible crisis which President Juarez foresaw while in Cordoba. That the ladies take greater interest in the welfare and progress of the Republic, few men, we think, will care to deny. If there breathe a man incredulous and impolite enough to doubt the truth of our assertion, let him turn his steps to the Palermo Exhibition and he will find that for one man that goes to examine the flour, the vegetables, the cattle produced by the country, there are three ladies. We say three because we should blush to say four.

Steeped in the quiet retirement of their homes, the ladies of Buenos Aires do not realise the full extent of their influence and power. They forget, perhaps, the role woman has played in politics, in literature, in history. Without their encouraging tenderness, many a statesman of genius would have passed away in obscurity. Without a Laura or a Beatrix we should not have had either a Petrarch or a Dante. Without a Madame de Stael, a Maintenon, a Roland, history would be deprived of many bright pages. Their virtue has made statesmen, poets and warriors, and it is more virtue we need to-day to stem the crisis. The Union Civica contains among its elements of reform virtue, since it has acquired the support of the ladies of Buenos Aires, and, therefore, we warmly welcome it as a regenerating agent.

A WEEK AT BRIGHTON.

Brighton, April 8th.

"Dear, delightful Dr. Brighton," as Thackeray used to say, is better than all the physicians in London. After the fogs and smoke of the metropolis it is very refreshing to get a breeze of the South Downs, mixed with the briny atmosphere of the sea. It is now seven years since I was in Brighton before, and I am glad to renew my acquaintanceship with the place. Except London, there is probably no town in England growing so rapidly, and in fact it may almost be regarded as a suburb of London. New streets, with long lines of houses, stretch out in various directions, along the shore to Portslade or up the Downs to the Devil's Dyke, this last a favorite resort of Brightonians. It is incredible how little the site of the Roman Camp is changed after 1800 years; you can trace the fosses, entrances, etc., for there is nothing changed except the name, the place being now known as the Devil's Dyke, without any apparent reason. You can see the spires of fifty churches, in ten different counties, and away to the S.E. is the Isle of Wight.

The climate of Brighton is something wonderful. In the house where I write is staying a lady from Buenos Ayres, who says she loves Brighton because it has a climate so like that of her own country. Some years ago I passed three months here, and observed in like manner, that you could almost fancy yourself in the River Plate. Rent is high, and the shops are dear, so that it is customary for people to say that living is 50 per cent higher than in London. This is not, however, altogether correct. If you leave the fashionable quarter you can get a very good six-roomed house for £60 a year, and food is really no dearer than elsewhere. Taxes average about 25 per cent of rent; the Municipality spending money freely on gas, water, promenades, free libraries &c. The large hotels are said to be very dear, and look very attractive. Perhaps the finest institution is the Convent of the Sacred Heart, which stands on a slope overlooking Brighton; it covers a large piece of ground and is surrounded by gardens. Some of the sisters are old friends of those in Calle Tucuman, Buenos Ayres.

Jews are even more numerous here than at Ramsgate. Some of the great Hebrew families, like the Sassoons, have superb mansions. The Prince of Wales often comes to stay with the Sassoons.

There is a grand esplanade, 700 yards long, which you would call the Alameda (because it has no poplars), with the sea dashing up against the wall. It is thronged, especially in the afternoons, with hundreds of people of all sorts. At intervals you pass invalids in Bath chairs, some of them evidently nearing the last stage on life's journey and enjoying the remaining hours of sunshine. In startling contrast are coveys of demi-mondaines, tricked out in jewellery and paint, whose numbers and effrontery are the only disagreeable feature in Brighton.

Perhaps I should observe that on Sunday afternoons the esplanade is rendered anything but pleasant by itinerant preachers who thunder out all the sacred names of Holy Writ in a manner that cannot fail to make the passing Jew stand aghast. On the other hand there is no place in England where the inhabitants seem to have a stronger sense of religion; the booksellers' windows during the week are full of evangelical tracts, the churches on Sundays are crowded, the tramway service is suspended. I am happy also to add that you see no drunkenness.

Brighton is interesting to people of a statistical tendency from the fact that its death-rate has been for years the lowest in Europe, ranging from thirteen to fifteen per thousand of the population yearly. This is only half the death rate of Paris, and even London stands fifty per cent higher than Brighton, since it is hardly ever under twenty per thousand. Now if you take into account the thousands of battered invalids who come here from London to recuperate or die, it will appear all the more surprising that the death-rate is so low.

The water is excellent, and this has much to do with health. There is also a general "consensus" on the part of the people to discard everything that could embitter life. Politics are a dead letter. There are neither attorneys nor stockbrokers. The inhabitants have no dislike to either Scotch or Irish, Jews or Germans. There is no sectarian animosity. In a word, life goes as smoothly as possible, and this is possibly the principal cause why the death-rate is so low. Nothing kills people like care, worry, quarrelling, politics, etc., and I believe if other towns were to imitate Brighton the world would be all the better.

MINISTER URIBURU IN LONDON

With much pleasure we publish the following letter which appeared in the London papers about our new Minister of Finance, Mr. Francisco Uriburu.

We note that of late Mr. Uriburu is the object of attack by many of our colleagues, which is much to be regretted, as he is deservedly esteemed by all who know him, and his measures meet with the very fullest approval of the market. It is to be hoped that Mr. Uriburu will continue his salutary reforms and not be induced to take to financial fireworks, which are calculated to injure both the market and the country.

The following is the letter:—

96 Gresham House, London, E.C.,
April 18th, 1890.

Dear Sir,—

Your remarks concerning the New Argentine Minister of Finance, while in some points correct, are in the main entirely wrong.

Don Francisco Uriburu was born in the Argentine Republic, in the Province of Salta, is about 50 years of age, is a member of an eminent family and belongs to no political party.

He is not a "new man"; he was a member of the Argentine Congress over fifteen years ago, and was for many years Senator of the Province of Buenos Ayres, as also President of the Provincial Bank, and was known to be the best president the bank ever had. In 1881, in consequence of his well-known financial ability, and during the most trying crisis the country ever had had, he was named Minister of Finance by Dr. Dardo Rocha, then Governor of Buenos Ayres. He organised the finance of the Province, enabling the bank to resume specie payment, after which he retired from the Ministry.

Señor Uriburu is a merchant of sound judgment and great capacity. Friends and foes unite in saying that he did not seek the position, but the position has sought him, and in the opinion of the Argentines, and all those connected with its affairs, no man is more capable of filling the important office of Finance Minister.

I say this in defence of a man whom I esteem highly, and know to have few equals in financial capacity in the world.

Regarding the management of the Platense Flotilla Company, Limited, he is only a local director occupying an honorary position, and one must go to Glasgow if there is any fault in the management.

Hoping I am not trespassing too much on your valuable columns in asking you to publish this,

I am, your obedient servant,

C. H. SANFORD.

THE CENTRAL PRODUCE MARRET.

NEW PLAN OF PUBLIC AUCTIONS.

In a previous chapter we ventured, at the risk of raising a howl of honest indignation through all grades and shades of our vast cosmopolitan population, to point to the well-known secret theory that it is "sweet to stick a friend," or in other words, get the better of your neighbor in a bargain. What else is advertising and puffing, so little known here as editors assure us, but which in England and the United States positively assumes the proportions of a fine art? "Curso forzoso" robbed many a merchant of half his outstandings; let those who would not "stick a friend" pay up in gold. Who can forget Phillips's free lunches along side of Cranwell's "botica" in Calle Rivadavia, where everyone paying for a glass of wine could eat as much as he liked, free, gratis, for nothing? In a day the honest proprietor became the most popular man in the country; in a week he was a bankrupt. Too much business. Oh save me from my friends! The auctioneer and his champagne breakfasts at each "remate!" Is it fair to drive up prices thus in a moment of such effervescent "enthusiasm?" Is it fair to pawn off an old saladero mare on an unsuspecting public as a fine young thoroughbred and that, too, in presence of the very owner, who, but for the mark on the animal's flank could never have doubted the words of the jovial auctioneer? Yet Cæsar you know was an honorable man. All honorable men.

Good wine needs no bush is a truth of world-wide acceptation, but we venture to assert as no less true, the fact that "good wool needs no push;" as fast as it can be brought to market the staple, even in its dirty, unwashed state, moves off for the Belgian and French looms. Like everything else in this world, however, it requires fair play, for often it occurs that fair average lots lie over from one season to another from being kept too long at the estancia or at an outside country shed, the over-sharp proprietor of which may have got squeezed himself by trying to corner the market. Too clever by half. Once and for all then, let us have an end of this wretched slipshod "year one" system. Away with the leaky roofs and rat-hole floors of the average camp deposit, aye, and a few of the old city depots also. Away with the roving buyer with French telegram in his pocket for the information of Irish sheep farmers. A German newspaper or two with latest quotations in high Dutch; splendid reading for English clients.

The new market will change all this in an instant and for ever, the latest European telegrams being posted up in all the chief European languages, so that those who run may read: the vast experience and honourable antecedents of the popular manager, Mr. Grant, being an additional guarantee (were any such required) of order and fair play. Born and reared in the camps of Chascomus, Mr. Grant entered the employment of the Great Southern Railway while yet a boy, working himself up step by step to the front rank without other favoritism than the fair reward of honest, patient, intelligent labour; his fellow clerks joining warmly with the public in their friendly demonstration on the occasion of Mr. Grant's retirement from the traffic department of Plaza Constitucion last year. To an intimate knowledge of the growth and handling of produce Mr. Grant unites a lengthened experience of our men and manners, the language of the country and the requirements of our trade, rendering him thus in a peculiar manner "the right man in the right place."

Equally worthy of esteem is Mr. Luis Greaben, the engineer, whose technical studies, begun in Dublin, were concluded in France. He came to this country some five or six years ago and has proved his ability and trustworthiness on more occasions than one, having superintended the erection of much valuable and intricate machinery. He is most careful and painstaking, rare qualities in employees on this side of the equator, as every employer in these countries knows full well to his cost.

No less fortunate has the company been in the appointment of its European Agents, Messrs. Cooper and Krabbe, of whom it is not too much to say that no better men could have been found for the delicate and trustworthy task of inspecting, purchasing and shipping all the materials. Indeed, so peculiarly true is this of Mr. George Cooper that anything I could say in favour of his vast technical knowledge and honourable antecedents would be but poor praise indeed; mere "painting the lily or gilding refined gold," an act of which I would not be guilty on any account. I may be excused, however, for calling attention to one grand, undeniable fact, that all the houses with whom these gentlemen entered into contracts for the supply of materials have faithfully fulfilled same "al pie de la letra", notwithstanding the strikes yonder and the crisis here, either of which unexpected contingencies might well have excused any second rate firm for failing to comply with some, if not all, of their stipulations, as too often occurs in government contracts.

The gains to the market company may be fairly set down at 100 o|o or even double that, for who can estimate the losses consequent on default or delay in this particular, entailing too often troublesome and vexatious lawsuits with inevitable and irremediable detriment to both parties. Meantime the sub-contractors, whether brickmakers here or ironmongers in England, are the real gainers by their integrity and self-sacrifice. High as the gigantic Andes itself do these honest merchants and tradesmen stand out in the esteem of all honest men, and when our readers require good brick or iron-work, well and carefully done, they have but to enquire for the names of those who built the Central Produce Market, spite of wholesale strikes and ruinous crises.

We have already shown as clearly as "two and two make four" that the new market favors the sheepfarmer and 'chacarero' immensely by creating a fair competition amongst buyers, at the same time it preserves the produce from loss or detriment consequent on improper housing, as in the case of camp town barracas with their leaky roofs and rat hole floors; but the real gain to commerce must result in the system of public auctions as practised with such eminent success in England, France, United States and Belgium, in every part of the civilised world in fact, except here in the River Plate, where alone the unique plan of the knowing but unknown "artistas" so long held almost undivided sway.

French telegrams and German correspondence for the information and guidance of English-speaking farmers!

Could the force of folly further go?

MORE UNPLEASANT THINGS ABOUT THE PAN-AMERICANS

THE OTHER SIDE OF THE QUESTION.

Alhough we have already published two energetic answers to the scathing observations of Mr. Fidel Pierra on the Pan American Congress, we think that the following extract from a New York paper may afford a further clue to the animosity that pervades that gentleman's letter:—

"Washington, D. C., March 28th.—The Argentine delegates to the Pan-American Congress can accept or reject absolute reciprocity with the United States. Messrs Flint and Coolidge, United States delegates, were authorised to make this proposition, but it applies only to the Argentine Republic and not to other countries taking part in the Congrese. None of the other countries want absolute reciprocity, nor does the Argentine Republic for that matter. But Messrs Quintana and Peña, the Argentine delegates, have talked so much about the United States being unwilling to lower its tariff for the admission of goods from their country that it was wise to give them the opportunity for unrestricted trade which they seemed to crave. They will give their answer to the proposition next week. It is true that the Argentine people have cause of complaint against the wool duties of the United States, but they have taken the worst possible means for bringing about a change. From the start, the two delegates seemed to think that the Congress had been called mainly to hear them talk. Mr Quintana found fault with the organization of the Congress, the Parliamentary rules it adopted, and countless other petty details. Everything seemed to show that he had come to the congress to see what could be done towards making it a failure. The delegates from the other South American and Central American countries have been disgusted at the performances of their Argentine colleagues. As the nations to the South are almost entirely dependent on customs duties for their revenues, their representatives have been anxious to explain that, however desirable unrestricted reciprocity with the United States might be, it was not practicable and the most they hoped to do in this line was to agree on the free interchange of articles which would increase the trade relations between them and the United States without snapping their own sources of revenue. The Argentine Republic differs from the other countries in this respect. Its people are bright and progressive, but they seem to have been unfortunate in sending theorists like Messrs. Quintana and Peña to represent them at an international gathering the scope of whose work is intensely practical."

Railway Items.

Mr. Clarke, manager of the Buenos Ayres and Rosario Railway, will, we learn, shortly retire, and Mr. Hunt, formerly of the Northern Railway, London, will succeed him as manager. Mr. Hunt is now on his way out on board the Magdalena.

The death of Mr. Sam Abbott, to which we allude elsewhere, cast a gloom yesterday over railway circles.

The Western Railway Scandal is now before the Judge. Mr. D'Amico's charges against Mr. Tapia, ex-chairman of the Provincial Railway Board, are classified under two headings, viz: (1) Violation of the Budget and (2) appropriation of money to the detriment of the management of the Railway.

Telegrams from Santa Fe yesterday state that the opening of the broad-gauge line from B. Aires to that city will take place on the 24th inst.

Dr. Araoz received a telegram yesterday from Santa Fe announcing a derailment at Sanchez Station. Three sleeping-saloons went off the track and were seriously damaged.

The La Plata Legislature will finally sanction the Anderson contract for the purchase of the Western Railway on Monday. The deputies have already passed the bill "en particular" and the Senate have now to give their approval. The final sanction would have been given on Saturday last but for the new law, which provides that no bill can pass both houses on the same day.

According to advices from Corrientes, Mr Jose Decotto has submitted to the local Government for approval a project for the construction of a railway from Saladas to San Antonio de Itali, Caa Cati and Ituzaingo. Mr Decotto asks for no guarantee and proposes to build a town at Ita Ibate on the Parana, a harbor of some importance.

The N. R. Board have cut down the estimates of the East Argentine Railway by $29,934 and effected a further saving by refusing to allow salaries to figure as gold. Thus, $52,940 gold marked under the heading of salaries is made $52,940 paper. The $9,960, estimated for the London Board has been suppressed by Dr. Araoz, who urges the Government to compel the company to reimburse the amount already paid under this heading. The original estimates of this Company are:

Gross Returns.	Weekly Expenses.	Net.
$	$	$
324,720	260,850	63,870

These estimates, together with the corrections above mentioned, were laid before the Home Minister yesterday.

Mr. Jacinto Estrella has been named interventor for the Argentine Great Western.

At the Home Office yesterday, the estimates of the Andine Railway for the remaining months of the year were received. The estimated expenditure amounts to $456,600, which implies a saving of upwards of $25,000.

Our exchanges by the last mail confirm the news we published some time ago of the abandonment of the tramway amalgamation scheme. The following extract from the chairman's speech at the last meeting of the City of B. Ayres Tramways Company bears on the subject:—

"It was, therefore, with astonishment that your board received an intimation that the directors of the Anglo-Argentine Company were not prepared to call the second special general meeting which it is necesary to hold in order to legalise the resolutions adopted at the first one. The various boards immediately assembled, when the Anglo-Argentine directors stated that, in duty to their shareholders, they were obliged to retire from the agreement unless we (the City Company) would further concede in their favour a considerable amount of the amalmagated capital which had been allocated to us. The meeting was adjourned in order that your directors might discuss the proposal among themselves. Well, gentlemen, after the most anxious consideration, we found that it would be absolutely unjustifiable for us to accede to the Anglo-Argentine's proposal. The negotiations for amalgamation had lasted for more than seven months."

Diogenes in the *S. A. Journal* of April 19th says:—

The Chairman of the Buenos Ayres and Rosario Railway Company, Mr. Frank Parish, had a pleasant task at Wednesday's meeting of shareholders. Notwithstanding the difficult times through which the country has passed, he was able to tell them that the number of passengers and tons of goods carried showed an increase of 51 per cent. From the 1st of February last they had added 60 per cent. to their rates, with the result that up to the 5th inst. the average return per mile per week was £34 2s. 8d., against £28 3s. 7d. in the previous year. Mr. Parish also was able to state that the directors fully anticipated being able to maintain the dividend of 9 per cent.

DEATH OF MR. SAM ABBOTT.

The death of Mr. Sam Abbott, which took place yesterday morning, removes one of the ablest, most popular, and most esteemed gentlemen in the service of the Southern Railway Company. For the last five years he had been general manager here for the company and the present prosperity of the concern may be traced in a considerable measure, to his untiring activity and energy. It may be said that he had the management of the railway at one of its most difficult periods, and all will regret his early and unexpected demise.

Mr. Abbott came to this country in 1885 to fill the post of resident engineer, succeeding Mr. William Roberts, who is now General Manager of the Argentine Great Western Railway, and about six months after was promoted, on the retirement of Mr. George Cooper to the post of general manager, which he held till his death. He went to England last year and returned only a few months ago, and only a fortnight ago attended the last local committee meeting, when he complained of being unwell, and the following day went to Mar del Plata to recruit his health. He returned, however, worse, and had at once to go to bed and send for the doctor; still all during his illness he was able to attend to the railway business in bed up to about three days ago, when his illness took a turn for the worse. Mr. Abbott was a universal favourite, and the employees of the great Southern Railway feel as if they had lost a father. Deceased was well known in English Railway circles, having served on the Engineering Staff of the Great Northern Railway, and be also served in Russia where be carried out large Railway works. He died almost in his prime, being only 48 years, and we tender to his disconsolate family every expression of sympathy at their irreparable loss.

The interment will take place at the British Cemetery to-day, the 18th inst., the funeral leaving the residence of the deceased, 1722 calle Bolivar, at 3 o'clock p. m.

Friends will please accept this intimation.

EDITOR'S TABLE.

Nothing locally new yesterday, except in the way of top-coats, gaiters and fur-lined gloves, owing to the cold snap in the weather. The debut of the Italian opera company next week was the main topic in fashionable circles, where, as yet they seem not to care a snap about the crisis.

The Polo at Hurlingham on Friday resulted in favour of Santa Fé, who, after beating Quilmes by 5 goals to 3 in a grandly-contested game, easily vanquished Buenos Aires. Camp air is evidently favourable to Polo.

The third grand concert at the Exhibition takes place to-day. Lebano the harpist, Madame Escalante and Signor Caldi take part in it.

The Rector of St. John's requests us to say that the Anglican Church service at Quilmes announced for to-day is unavoidably suspended.

We cannot publish "Vestryman's" letter about the Anglican Church, as he has not sent us his card.

The Rev. Dr. Wood will again lecture in the Hall at the rear of the American Church at 8 p.m. to-morrow night. The title of the Lecture will be 'Testimony of the Rocks.' Open to the public: admission free.

The advices from Brazil yesterday were extremely stiff: The riots in Porto Alegre, were very serious, and wound up by the troops and police refusing to fire a second time on the people, and subsequently fraternizing with them. There seems to be an anti-republican movement all over the province of Rio Grande.

People in London are saying that they do not believe in the rescue of Emin Pasha by Stanley; the reason is that they are certain there is no M in Pasha at all.

The City ediles met on Friday, and resolved to meet again to morrow to decide whether a couple of million shinplasters which the Lord Mayor took it on himself to spend without the Commissioners' sanction shall be paid or not. Some 300 citizen creditors feel decidedly anxious as to the decision. Petitions were read from the aristocratic residents of Calle Florida, praying for the removal of the tram rails, and from the A. A. and B. B. T Companies, imploring that they be left where they are. After a rousing debate, the Lord Mayor and the aristocratic petitioners beat the Companies all along the line, and up the rails are to come within one calendar month. Rents will rise now in Florida since the atrocious tram horn is banished.

A rival to Hurlingham is being started The *Prensa* announces the formation of the "Durlingham Club" with grounds arranged for races, and many other sports and pastimes, some of which may be new and interesting to our English readers: such as "Criche t," "Forfball," "Polo" and "Lavontemus."

The football match takes place to day at the Polo field. Quilmes, kick off at 2 p.m. On Sunday the 25th inst. the match Old Members and New Members will be played on the Polo field, Flores.

Actors, singers and other artists are supposed to be individually a very jealous race, but collectively there is always a bond of "camaraderie" between them which cannot exist in purely business circles. The latest instance of this is furnished by the management of the Politeama who have generously extended a general invitation to the artistes of the Italian Opera to visit the Politeama as often as they choose. Bravo! M. de Glaser, you deserve well of your guild!

Oh! We were shown yesterday by a subscriber a deed sent to him from England to sign, in which he is described as "residing in the Republic of Buenos Aires"!!! Yet this document was drawn up in the office of one of the first legal firms in London.

We sincerely regret to learn that the very Rev. Father Fidelis, the respected head of the Passionist Order, has met with a serious accident while crossing the Andes to this country. He is now in hospital in Valparaiso, and we join his hosts of friends here in hoping for his speedy recovery.

We were favoured with a copy of the *War Cry* yesterday, and learn from it that "Colonel" Thurman has "farewelled" from this country.

The cablegrams from Europe yesterday show that the reign of peace on earth has not yet come. The strikes are bad enough, without the 'silent strategist's' declaration that the European situation still looks threatening. If there is a rumpus, there will be no money for poor Argentina.

Telegrams from Entre Rios report part of the National Guard called out (Only the National Government has power to do this); armed men in all directions; "reclutando gente" going on, and a species of state of siege everywhere. In fact the news reads like provincial intelligence of twenty years ago.

The carriage competition at the Exhibition on Friday drew a fashionable crowd. Neither Rotten Row nor Longchamps could show much better turns-out; they were very fine. The first prize was awarded to the splendid turn-out of Mr. Varela Castex, and Mr. R. B. Gimenez took the second, with one almost as good. In the second trial for carriages driven by gentlemen. Mr. Castex also won the first prize, the horses (English) he drove being far away the finest in the show. Mr. Ricardo Fernandez won the second prize with another superb pair of English horses. The third prize fell to M. Dugelay. The tandem competition created great interest. Mr. Martinez de Hoz drove a pair of English hackneys in such style that there was a general shout of applause when he was awarded the first prize. Mr. Castex took the second with a pair of Hungarians, and Mr. Carlos Escalada the third. The programme for this week is: Monday, fours-in-hand and pony carriages. Wednesday, hurdle and water-jumping. Thursday, grand defile of the horses and carriages that have won prizes. Friday, more carriage competition. Sunday next the distribution of prizes will take place, and on Monday there will be a Velocipede race for men and boys. On June 1st the Exhibition will come to an end.

There was a shindy at the San Martin theatre on Friday night between the "boletero" and a lot of fashionable "jovenes" who wanted to have a look at the actresses as they were coming out. The poor "boletero" was being unmercifully belaboured with gold-headed canes when the manager appeared and called the police; upon which the young fellows stampeded like hares; but one of them was so slow on his pins that "la autoridad" nabbed him.

The Lord Mayor, flushed with his tramway victory in Calle Florida, now meditates the removal of the rails in Palermo Park. Nobody will say nay.

Government has allowed an extension of fifteen days more for paying Patente tax in the capital of the republic.

It is with much regret that we notice the death of Mr. Lovett Nicolls, brother of Mr. Francis Nicolls of the firm of Nicolls and Doune, who was generally respected.

Blood Royal, trained by O'Neill, when at exercise yesterday morning, bolted and ran into Sentry who was trotting quietly in his sulky; we are pleased to say that little damage was done

We find the following bit of news in a recent exchange:—"One of the fortunate men who seem not only not to have lost anything in the Panama canal scheme, but who have grown rich out of it, is the son of Count De Lesseps. He is about fifty six years old, and late reports from France say that he is about to visit the United States with his family. It is generally conceded that he has made, up to the present time, about twenty millions of dollars out of the Panama Canal Company. No one has ever accused him of having acquired this money in any other than a fair business way, and he belongs to that class of men in the world who enjoy their wealth thoroughly and are in all respects liberal with it. Neither is he the only man in France who has made a fortune out of this business. Many others besides him were admitted "on the ground floor," to the immense benefit of their bank account and their annual income. Nearly all the contractors on the canal got rich. As to the stockholders, their turn will come later on—if it comes at all."

Judging by the Rio Papers to hand they seem to think there that Chile means to annex Bolivia at no very distant date, and therefore declined to accede to the Arbitration proposal of the Pan-American Congress. Better news than this from Rio is the announcement from Campinas that the epidemic of fever there has declined to such an extent that the services of outside physicians are no longer required. A great part of the medical commission sent there has withdrawn. The total number of deaths last month was 222, against 890 in the epidemic of last year. This, however, is bad enough for a population of 10,000 to 12,000, which is probably about the figure for the city at the present time. The *Rio News* says:—"An anonymous writer in the *Jornal do Commercio* on the 26th calls upon the army to interfere and insist upon having a milreis worth 27 pence sterling. This is silly; a much easier way to advance exchange would be for Sr. Ruy Barbosa to decree that Europe must lend him some money."

A lot of prehistoric lances, pots etc. has been found near that fashionable spot Mar del Plata. One of the lances is made of silex.

A Berlin paper says that Lord Salisbury is the only man fit to succeed Bismarck as director general of European politics. Crispi is a humbug, and nothing without Bismarck's support. Kalnoky is too timid for the vacant post. The only objection our German friends have to the British Premier as leader of Europe is that he has a master—the English electors, who might send him packing at any moment It is interesting to note that our Berlin colleague did Mr. Balfour the honour of mentioning him also as quite competent to influence the destinies of Europe if he got the chance.

"That horrible paper," as some superfine people call the breeziest gossip journal in gossiping London, *Modern Society*, says: —'A noble Russian Princess has just published a letter inviting all Russian and French ladies to form a corps of Amazons to go into the interior of Africa to fight the celebrated Amazons of the King of Dahomey. The Russian newspapers have taken the affair up, and say rightly that gallant French officers will spring forth on every side to command such an army; but imagine, oh! ye gods, the jealousy and disputes of the women over the few men they will have in their vicinity.

The pickpockets' favourite hunting ground now is Calle Piedad, between San Martin and Reconquista, always the most crowded square in the city about the closing hour of business. Any one up for fun can have it by sewing a few fish-hooks in his pocket, tucking in an old "cartera" well bulged out with a compressed newspaper; then he must try and look like a fool from the country on a visit to town. A catch will be certain.

The Spanish Floating Exhibition steamer, the Conde de Vilana, will shortly sail for home with samples of the Oriental "Bos," to see how he will cut up in Europe as sirloins and beefsteaks. He will taste better than his Argentine brother, as he always was a superior animal.

The light-ship on the English Bank is again in its proper place, and may perhaps remain there till the next storm, and perhaps not.

The literary and musical Independence jollification at the Paraguayan Club was a very nice affair. The patriotic eloquence of the speeches was only surpassed by the supper, which was the very best that money could buy. The crisis has evidently not made much havoc in the pockets of our Paraguayan friends.

Some sanguine gentleman in Rosario is going to try a new kind of omnibus there. He may already give the auctioneer an order to hold himself in readiness to sell the vehicles in a few months. Omnibuses have been tried in this big city over and over again, and have always gone to the dogs; so they are not likely to succeed in little Rosario. As for anything *new* in the omnibus line, we defy even Edison to invent it.

The papers mention the cases of two young ladies and a female servant who were bitten by a cranky little lap dog belonging to the former, while giving the useless beast a bath. The trio immediately concluded that the dog was mad, Dr. Davel was called in, Pasteur's treatment was gone through for a mouth, and then it became clear that the pampered little brute was not mad, but simply vicious from overfeeding and petting, as most of his tribe generally become.

RACING NOTES AND ANTICIPATIONS.

Another big programme, and an excellent one too, issued by the Hipodromo Nacional for to day; we are glad to note that its dimensions are somewhat more moderate than of late; five races and a trotting engagement are comprised in it, and, as the latter is placed last, all those who desire to see the whole of the racing and get back in town in good time will be enabled to make an early exodus after the 5th race. The fields are sure to be large and the class fairly good.

Our selections are as follows:—

Premio Desengaño—Bien Venida
" Gladiador—Solomon or Stud Nuevo
" Esperanza—Ec. San Martin
" Centella—Solomon or Ec. Talisman
" Del Lago—Asteroide or Puygaveau.

We append an extract from the Buenos Aires correspondent of the *Mark Lane Express* of April the 14th:—

"Considerable disgust has been evinced on the part of sporting Englishmen resident here (and what Englishmen are not sportsmen?) at various criticisms that have appeared in English sporting papers lately on the Argentine Turf. Believe me, these writers on a weak substratum of truth have piled up a superstructure of exaggerations and misstatements. The turf here, for a young institution, is remarkably healthy and vigorous and is likely to continue to thrive. I should not have alluded to this subject, however, had I not wished to point out the injury these calumnies may cause to English breeders and dealers who have hitherto had a good market with the Argentines, who may, for the future, prefer to purchase their racing stock in France, where influential sporting papers do not insert offensive communications reflecting upon good customers—and it must be remembered that hitherto French-bred horses have been more successful here than English. *Verb. Sap.!*"

It may be interesting to our readers to give the results of the pony races at Hurlingham on Thursday.

3rd race—Mr. Scott's Gaucho (Bond) 1, Mr. McClymont's Gualicho (owner) 2. Gualicho seemed to be winning when, taking matters rather too easily, his rider allowed Guacho to get up.

5th race—Mr. McClymont's Rearguard (Livock) 1, Mr Brown's The Pink 'Un (Mr. Preston) 2. After passing the post, the latter fell over a dog, his rider unfortunately dislocating his shoulder.

Consolation race—Mr. Obre's Billee Barlow (Day) 1.

PRICE OF GOLD TO-DAY.
First Ring............ 237.00
Second Ring........... 236.50

Saturday, May 17th
The market remained practically unchanged at the first hour to-day, it being clear from the start that it was oversold, and that consequently there could be no decline in rates. Owing to the great supply of cash gold, there was, on the other hand, no great advance, and parties who sold cash were able to buy for Saturday and end of month at a point difference in price, which also tended towards keeping the rates stationary. Telegrams from London about the loan were eagerly looked for, but it seems that none have been received, so that the only outside influence at present bearing on the market is the lightning rapidity with which the La Plata Chambers are dispatching the bill for the sale of the railway, which will be law on Monday or Tuesday, having already passed the Deputies and only lacking now the sanction of the Senate "en particular." Withal, the opinion prevailing in the market is that gold is ripening for a fall, so that any development of events will precipitate another bearish attack. The total of gold sold was something over a million, the bulk being for cash, at rates fluctuating between 235 and 239, closing at 237. In stocks the movement was dull, but prices ruled firm, a satisfactory sign with gold so firm, and Cedulas reflected even an advance. In the sovereign stock nothing was done.
The following is a summary of operations effected this afternoon during the first ring:—

In exchange, brokers report the market unaltered. Rates are quoted at 47¾-48d., 5.02-03 fcs. Paris and 5.03-04 Antwerp. The National Bank continues drawing for the French packet at rates already published and taking paper for gold at market rate.
Cereals are reported improved in price, due to small arrivals from the camp; best quality wheat for consumption sold yesterday at 8½ to 9 dollars, nothing done for export; flour best quality 1.40 to $1.50; maize, last crop and principally from up river for export fetched 2.60 to $2.65 to be delivered in June and July; old yellow maize was done at 2.50 to $2.60 for immediate delivery.
The sale is reported of a site in Calle Callao between Temple and Cordova at the rate of 122 dollars per square yard, buyer Mr. J M Bright. The land was occupied by an old tumble-down building.
In cereal shipments the following are reported:—
Per s.s. Savoie, 7000 bags of wheat from San Nicolas for Marseilles.
Per s.s. Manila, 2,649 bags white maize and 4,338 yellow for Genoa.
Produce brokers report the sale yesterday of 20,000 bags maize, new crop, at 2.60, to be delivered in San Nicolas; buyer a leading German firm of this market.
Great news for produce consignees! The Central Produce Market will be officially opened on the 20th inst.
The Finance Committee of the Chamber of Deputies had a long interview yesterday with Minister Uriburu in which the project for collection of 50 per cent Custom dues in gold formed the subject of discussion. It seems that on Monday the Committee will issue their Report recommending the approval of the bill, but with an added clause fixing a date from which the new measure will come into force, so as to exempt all merchandize received or ordered before the bill became known. This clause is of paramount importance to merchants and will do much to palliate the unfavourable first opinion formed of the project.
According to the *Telégrafo Marítimo* the Customs receipts of Montevideo for April amounted to 936,395 dols. and for the first four months of the year to 3,800,413 dols., or say nearly a million dollars a month and close on 12 millions for the year. This shews favourably alongside the Argentine Customs receipts, reducing the latter to paper, and considering the relative importance of the trade interests of the two countries.
Dr. Cigorraga, Commercial Judge, has given judgment in the case of the liquidators of the firm of Falcon and Co. of Antwerp against Mr. E. Cocqueteaux, confirming the verdict of the Antwerp Court, in which the case was first tried, in favor of the plaintiffs. The defendant alleged lack of jurisdiction of the Court and erroneous procedure on the part of the plaintiff, in as much as action should have been taken against the firm of Cocqueteaux and Co. and not against him personally as one of the firm. Dr. Cigorraga decided that as Cocqueteaux had not designated the legal representative of his firm nor shown where the properties existed the plaintiffs were quite within their right in bringing action against any of the partners. The verdict is for the sum of 936,877 frs. interest and costs.

Captain C. E. Ferguson, of the Lamport and Holt s.s. Mozart, reports the following vessels spoken:—
May 2nd, spoke the bq. Phasis of Greenock, from San Francisco to Havre, all well; Lat. 1.00' S, Long. 31 10' W.
May 7th, Lat. 20.43' S, Long. 38.43' W, passed barque Brandon of Quebec, steering S.W., closehauled.

Business at the second hour was unimportant, only a little over half a million dollars gold changing hands; the rate opened at 236.50 and the bulls succeded in hoisting the price up to 239.50, at which, however, it could not be maintained for a moment and it finally left off at 236.50 weak, proving conclusively that the stiffness of the rate in the morning has been due to the oversold state of the market. Stocks improved. National Bank Shares reappearing at 148, Constructors at 40.50 and Catalinas at 41, whilst Cedulas all round were steady. A few Bolsa Bank shares changed hands down to 35, shewing that this class of stock is not at all events yet in much request.

The following is a summary of operations effected this evening at the second ring:—

According to commercial cables received by our leading colleague *La Argentina* there has been a slight drop in Argentine values in London, the Sterling Bonds falling off a quarter to 79 and the 1884 loan one half to 91½. Wools, sheepskins, hides and tallow are also rather flat.

According to advices from the Mount, it seems that there is a rumor afloat there that the National Bank has applied to the Obras Company for the title-deeds of the Reno Barrio, mortgaged to the Bank; this would seem to point to some flaw in the mortgage. The Government is busy preparing a colonisation scheme and to pave the way has issued a circular to the Jefes Politicos, enjoining them to recommend estancieros to form small colonies on their properties and to apply to Government for the colonists.

The appreciations of our colleague, *El Nacional* with regard to the loan have attracted much notice, though its account of the terms is considered much exaggerated and overdrawn. The National Government can get a loan now on much more favorable terms than our colleague supposes, though the exact state of the negotiations is of course kept in the strictest reserve. It is absurd, however, to suppose that for a paltry three millions the bankers should request or be offered values to 110 millions.

Rather better telegrams were received from London this evening and it seems to be admitted now that on the passing of the law for the sale of the Western Railway on Monday the loan business pending in London will be at once concluded.

The Thames is due in Montevideo tomorrow. She brings £200,000 sterling for this market.

With deep regret we announce that telegrams received this morning confirm the news of Mr. Thomas Drysdale's illness on his arrival at Southampton. He is suffering from a severe attack of bronchitis, but it is to be hoped that the next telegram will bring us news that he is better.

Exchange ruled firmer and some bank exchange passed this evening at 47⅞d;

According to Santa Fe advices the local Government has received offers from no less than six English banks offering to place the bonds emitted under Colonies Law of Dec. 3rd 1889; these are Lloyd's Bank, London Joint Stock Bank, London Bank, National and Provincial Bank of England and London and Westminster Bank. Business in exports very brisk, but river very low and the roadstead almost dry, which is a serious drawback to merchants.

Sr Sebastian Canova has petitioned the Government for a concession for forming on the sea coast between a point 25 miles from Mar del Plata up to Cape San Antonio fishponds and other conveniences for pisciculture on a system invented by him, factories for preserving and salting fish and producing oil &c He proposes to introduce 150 families of Spanish fishermen and to employ steamboats of his own invention for quick transport.

With regard to the purchase of the magnificent Clydedale stallion First Choice for this country, the *L. S. Journal* contains the following complimentary allusion to Mr. Meeks' success as a breeder:—

First Choice, we are glad to hear, has arrived safely at his new home in Buenos Ayres, and has been much admired by all who have seen him. He was purchased by Messrs. C. T. Getting and Sons for Mr. Meeks, who is now one of the first all-round breeders of pedigree stock in the Argentine Republic, and who also purchased through Messrs. C. T. Getting and Sons the celebrated Duchess bull Duke of York 9th for 1,000 gs., at the Earl of Feversham's sale. It will be remembered that the sire of this bull, Duke of Connaught, was sold at 4,500 gs., and the dam, Duchess of Underley, fetched 2,000 gs., and the grand-dam, Duchess of Hillhurst 5th, realised 4,300 gs. This go-ahead breeder also purchased through the same firm the celebrated thoroughbred stallion Bismarck, by Pride of Prussia out of Fleada, and also the finest Hereford bull he could find in the United States, viz., Archibald A.

The following transactions in real-estate are reported:—

San Juan 494 495, 8.66x22.50 metres for $250 m$n.

Constitucion, between Catamarca and Rioja, 12.99x8.66 for 3,000 m$n.

Corrientes, between Medrano and Ortega, 16.51x49.16 for 6,500 m$n.

Suarez, between Herrera and Universidad, 11.20x55.50 for 7,599 m$n.

Malavia, between Guemes and Santa Fe, 17.32x75 for 16,000 m$n.

Messrs. Emilio Lahitte and Co. have purchased in the town of Salado a piece of land for 12,350 m$n, on which a meat freezing establishment will be erected.

The following figures shew the value of gold coins in the National paper currency with to day's premium of 137.00 o/o:—

Wolseley Sheep Shearing Machine Company, limited.
This company is prepared to supply the Wolseley Sheep Shearing Machines, with their accessories, in any quantities. They are now coming into general use in Australia, where, during the past season upwards of 7,000,000 of sheep have been shorn by them; and it is confidently expected that over 20,000,000 will be shorn by them in that country this year. The following are some of their proved advantages over the ordinary shears:—
Estimated at per sheep per clip.
(1) Increase is quantity and value of wool (See testimonials).... 1½d.
(2) Increased value of pelts owing to total absence of cuts 1
(3) Saving of 1 per cent, usual allowance for deaths resulting from cuts and stabs 2½
(4) Saving of labor and time, as the work can be performed in half the time usually occupied with the old style of shearing.... 1½
Total per clip per sheep........ 16d.
(5) Total absence of suffering to the sheep.
These economies add enormously to the income of the Australian wool-growers, and are applicable relatively to sheep-farmers everywhere.
The Wolseley machines may be seen in actual work at the Agricultural Rural Exhibition at Palermo.
For further particulars apply to the agents, Messrs. Agar, Cross & Co., Calle Defensa 124 á 136, Buenos Ayres, where certificates and testimonials can be seen.

Cold Weather.

One of Adams and Westlake's Celebrated Kerosene stoves is a real comfort at this time of the year. They burn brightly and steadily, give a good heat, require no chimney flue or stovepipe can be carried from one room to another, and are entirely free from smell or smoke.
We have no hesitation in stating that there is no kerosene stove in the world to equal this, either in heating power or freedom from smell. Sole agents,

TO LET a furnished bedroom for a single gentleman 1488 Chacabuco. m454 17 24

Strange, but perfectly true.
Everybody has an absolutely blind spot in each eye, and its presence may be easily demonstrated by the following simple experiment:
● ✚
Hold this page about a couple of feet away, so that the spot is opposite the left eye and the cross opposite the right. Close the left eye, and fix the gaze of the right steadily on the round spot. Now bring the paper slowly nearer, and a point will be reached when the cross will totally disappear from sight. At a less distance it will reappear, for it is only when the image of the cross is exactly on the blind spot that it is invisible.
Now, gentle reader, another simple experiment, and this time to demonstrate that, blind spots notwithstanding, you are NOT blind to your own interests:—
"Let J. Brown dress you elegantly, yet economically, for cash."
And please note that on and after June 1st J. Brown's address will be
513 Piedad, esquina San Martin,
(above Messrs. Mackern & McLean's establishment)
Prices will not be advanced.
Gentlemen who prefer being waited on with samples will kindly make appointments as heretofore.
Casilla de Correo 1694.

Dr. J. Collis Browne's CHLORODYNE.

THE ORIGINAL AND ONLY GENUINE

Advice to Invalids.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by D. J. Collis Brown, (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.
CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5 1880. To J. T. Davenport, Esq., 33, Great Russel Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan; but all over the East. As a remedy for general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are so sorry to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhoea and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation during many years. In Choleraic Diarrhoea, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm Conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate Breach of Faith on the part of the Chemist to prescribe and Patient alike. We are, Sir, faithfully yours, Symes and Co., Members of the Pharm. Society of Great Britain. His Excellency the Viceroy's Chemists.
Caution.—Vice-Chancellor Sir W. Page Wood stated that Dr J. Collis Browne, was, undoubtedly, the Inventor of Chlorodine; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to,—See "The Times," July 13, 1864.
Sold in bottles at 1s. 1 1/2d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.
Caution.—Beware of Piracy and Imitations.
Sole Manufacturer—J. T. DAVENPORT, 33 Great Russell Street, Bloomsbury, London.
